GOALS FOR RACINE COUNTY ALL HAZARD MITIGATION PLAN

The following goals have been established for the Racine County hazard mitigation planning program.¹ The goals have been established based, in part, upon goals previously established in watershed, park and open space, and land use planning programs.

1. A spatial distribution of the various land uses which minimizes hazards and dangers to health, welfare and safety as well as further enhancing the economic base of the County, and will result in a compatible arrangement of land uses properly related to the existing and proposed supporting transportation, utility, public safety systems, and public facility systems.
2. A spatial distribution of the various land uses which maintains biodiversity and which will result in the protection and wise use of the natural resources of the County, including its soils, inland lakes and streams, groundwater, wetlands, woodlands, wildlife, and natural areas and critical species habitats.
3. An integrated transportation system which, through its location, capacity, and design, will safely, economically, and effectively serve the existing and proposed land use pattern and promote the implementation of the land use plan, meeting the current and anticipated travel demand and minimizing the potential for accidents and the associated toll on life and property damage.
4. The provision of facilities necessary to maintain a high quality of fire and police protection and emergency medical services throughout the County.
5. The development of a stormwater and floodplain management system which reduces the exposure of people to drainage- and flooding-related inconvenience and to health and safety hazards and which reduces the exposure of real and personal property to damage through inundation resulting from flooding and inadequate stormwater drainage.
6. The identification of high erosion risk Lake Michigan shoreline areas and the development of a coastal erosion management program which reduces the exposure of people and real and personal property to shoreline erosion and bluff recession.
7. The identification and development of programs which complement County and local emergency operations plans, to mitigate the potential exposure to health and safety, and the exposure of real and personal property, to a broad range of hazards which are unpredictable and not geographically specific in nature.

Racine County Hazard Ranking Assessment

INSTRUCTIONS

To Local Planning Team Members:

Racine County is conducting a study to better understand the preparedness needs and risk perceptions of its Hazard Mitigation Local Planning Team Members as part of the County's Hazard Mitigation Plan update process.

To do so, a questionnaire has been distributed to the Local Planning Team Members. Your feedback is needed and greatly appreciated!

The questionnaire should only take about 5-7 minutes to complete. Responses will be utilized to inform the Natural Hazard Identification and Risk Assessment portion of the Hazard Mitigation Plan update.

Your input will serve as part of your jurisdiction's participation in the Hazard Mitigation Plan update, which is required under federal guidelines to maintain eligibility for FEMA hazard mitigation funding.

DEADLINE: Please complete the survey by May 15, 2022.

Thank you for your participation!

If you have any questions, please contact Katelyn Miner, Southeastern Wisconsin Regional Planning Commission, at 262.953.3277 or kminer@sewrpc.org.

Please indicate which jurisdiction you are representing:

PROBABILITY

Please indicate what you consider to be the likelihood that this hazard will occur.

- Low - Occurs very little or not at all (every 51-100 years)
- Moderate - Occurs somewhat or rarely (every 26-50 years)
- High - Occurs often or frequently (every 1-25 years)
- Not Applicable - does not apply to your area/jurisdiction

Issues to consider for Probability include:

- Known risk
- Historical data and experience
- Local government or agency experience

In addition, the following attendees (non-Planning Team members) were present (either virtually or in-person):

Mark Anderson	City of Burlington Police Department
Carissa Brunner	Public Health Strategist, Racine County Public Health
Kelly Fragassi	Manager, Journey Disaster Response Team
Rebecca Wallendal	Clerk, Village of Union Grove
Megan Watkins	Assistant City Administrator, City of Burlington

Mr. Delagrave welcomed the attendees to the meeting and thanked them for their participation. He then discussed the importance of the Hazard Mitigation Plan for the County.

OVERVIEW OF HAZARD MITIGATION AND HAZARD MITIGATION PLANNING PROCESS

Julie Anderson introduced Katelyn Miner, Land Use Planner, Southeastern Wisconsin Regional Planning Commission (SEWRPC). Ms. Miner briefly reviewed the meeting's agenda. She then presented (Powerpoint) an overview of hazard mitigation and the hazard mitigation planning process.

BACKGROUND ON THE CURRENT EDITION OF THE RACINE COUNTY HAZARD MITIGATION PLAN AND DEVELOPMENT OF THE PLAN UPDATE

Ms. Miner presented a brief background on SEWRPC and its role in hazard mitigation planning. She then discussed the previous (2017) update of Racine County's hazard mitigation plan.

After discussion of the current edition of the County's plan, Ms. Miner presented the main components that are developed as part of SEWRPC's hazard mitigation planning format. She also presented a tentative schedule for the current plan updating process. In addition, Ms. Miner explained the main functions of the Local Planning Team in the plan development process. Ms. Miner noted that this plan update will be for natural weather hazards only.

[Secretary's Note: Ms. Miner's presentation can be found here:]

HAZARD AND VULNERABILITY ASSESSMENT EXERCISE

Ms. Miner led the hazard and vulnerability assessment exercise. She noted that a hazard and vulnerability assessment tool and instructions for completing the tool were included with the agenda for this meeting. She asked everyone in attendance to fill out the survey. Those that are interested that were not in attendance can fill out survey by May 15, 2022.

[Secretary's Note: A copy of the hazard and vulnerability assessment tool and the instructions for completing the tool are attached herein as .]

Ms. Miner asked the members of the Local Planning Team and any attendees to complete the hazard and vulnerability assessment tool. She explained that the results of this exercise would be one of the factors used to determine which hazards are addressed by the hazard mitigation plan.

ADJOURNMENT

There being no further business, the meeting was adjourned at 10:30 a.m.

AFTER MEETING DISCUSSIONS

After Ms. Miner's presentation, Mr. Zeke Jackson, Village of Waterford Administrator, asked if 21st Century hazards would be addressed. Ms. Miner affirmed that 21st Century hazards would indeed be addressed.

Note: Cost-share and local match requirements reported in this table can vary depending on specific details for individual projects.

^a The non-Federal share is 25 percent. In Wisconsin, the State Division of Emergency Management pays 12.5 percent and the local community pays 12.5 percent.

^b Funding available on an annual basis.

^c Municipalities must have a flood mitigation plan to be eligible for a project grant.

^d The individual fire cost threshold for a State is the greater of \$100,000 or 5 percent x \$1.07 x State population. The cumulative fire cost threshold for a State is the greater of \$500,000 or three times the 5 percent x \$1.07 x State population. Both formulas are adjusted annually for inflation using the Consumer Price Index for All Urban Consumers published annually by the Department of Labor.

^e In kind services are allowed as a part of the local cost-share assistance.
